Volume : 0.5/1.5/2.0 ml

Accumax SCREW CAP TUBES

Volume : 0.5/1.5/2.0 ml

Accumax Screw Cap Tubes provide a clean, safe environment for your critical samples, ensuring maximum protection and reliability. Designed with versatility in mind, these tubes range from 0.5ml to 2 ml and are highly customizable to meet diverse laboratory needs. Choose from options like graduations for precise measurements, ribbed grips for easy handling, and conical or skirted bases for specific applications.

Crafted with premium-quality material, these tubes ensure exceptional performance, whether you're using them for centrifugation, sample transport, or long-term storage. They are especially ideal for sensitive applications, including the secure handling of synthesized oligonucleotides, enzymes, buffers, and other high-value biological samples.

Built to withstand rigorous lab conditions, our Screw Cap Tubes are an indispensable tool for researchers and professionals who demand reliability and precision in their workflows. Enhance your lab's efficiency and confidence with these innovative, high-quality solutions.

0.5 ml Self Standing

1.5 ml Conical

1.5 ml Self Standing

1.5 ml Self Standing Amber

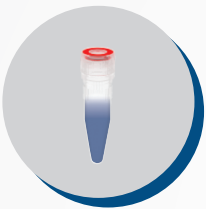

2.0 ml Conical

2.0 ml Self Standing

Product Features

Accumax Screw Cap tubes are ideal for enzymes and Buffer storage.

These tubes come in three Volumes 0.5ml, 1.5 ml & 2 ml and Self Standing/Conical formats.

They are designed with an infused 'O' ring with better sealability and leakproof stability in comparison to traditional O ring design.

Infused O ring, caps and tubes are all manufactured in Class 100K clean room with no secondary assembly operation involved making it contamination free production.

Manufactured using USP Class VI medical grade Polypropylene (PP) conforming to US FDA

They can withstand RCF upto 20,000g & -196 degree freezing & Thawing at Room temperature.

They are RNase free, DNase free, Endotoxin Free, Human DNA free, PCR Inhibitor free, ATP Free
